

CEMRK-ED-TD (200)

14 February 1989

MEMORANDUM FOR

Commander, Missouri Division, ATTN: CEMRD-ED-EA/Dreibelbis  
Commander, USACE CEEC-EB/B. Shaw, Pulaski Bldg., 20 Mass Ave., N.W., WASH DC  
20314-1000

SUBJECT: Defense Environmental Restoration Program (DERP) - Remedial  
Investigation/Feasibility Study (RI/FS) for Former Lake Ontario Ordnance Works,  
Lewiston/Porter, NY, Project C02NY002500

1. Enclosed for your information is a copy of the "Summary Report - Field  
Reconnaissance Survey Summary for Selected Properties" at the Former Lake  
Ontario Ordnance Works. The report describes the results of a recent  
reconnaissance survey of additional areas within the boundaries of the former  
ordnance works where past DOD activities took place. There were four areas  
surveyed: (1) the former Air Force Plant 68 site, (2) the wastewater treatment  
plant for the former ordnance works, (3) the remaining structures associated  
with the original TNT manufacturing plant, and (4) the site of a former Nike  
base. The report identifies numerous areas of potential hazardous waste  
contamination throughout the areas surveyed.

2. It is our intention to complete a sampling and analysis program during the  
spring of FY89 to confirm the presence or absence of contamination at the areas  
surveyed. Additional Remedial Investigation/Feasibility Study (RI/FS)  
activities would subsequently be initiated based on the findings of this  
sampling effort. If you have any questions or desire further information,  
please contact Mr. Lee Fuerst, project manager, at (816) 426-2608.

FOR THE COMMANDER:
